

festival STUDIOS.tv

STUDIO, MEDIA & VIDEO BOOTH

With a vibrant studio, social media management and a video booth we can enhance your event and maximise your exposure.

Festivalstudios.tv can create a tv studio environment at your event and film, edit and upload all content while your event is in full swing. Through social media we create interaction between your event, your artists and your crowd.

The video booth creates a unique attraction which produces "Vox Pop" content with increased sharing potential.

- Complete studio environment
- Minimum of 4 Videos per day
- Social media management
- Event interaction and updates
- Video Booth for visitor interaction
- Capturing all areas of your event

WHAT MAKES US DIFFERENT?

1 SELF CONTAINED
Festival Studios are a completely self contained unit, supplying everything including set, camera equipment, props, lighting.

2 INSTANT CONTENT
Festival Studios will film, edit and upload all content produced online during your event. No waiting and losing the impact.

3 CREATIVE APPROACH
Festival Studios will work with your creative team to realise the full potential of your event.
